RE: Response to the Interim Fire Protection Solutions, Hangar 4, 5, & 6

Dear Mr. Perkins,

The Brunswick Fire Department has reviewed the interim fire protection solution, proposed by Poole Fire Protection in the letter dated February 5, 2025. The Fire Brunswick Department, in collaboration with the Maine State Fire Marshal's Office, **Approves** the plan with the following conditions:

- Flammable liquids, combustible liquids, and aerosol spray can be stored within approved flammable liquids cabinets
- Oil/fuel-soaked rags shall be placed into an approved oil rag container
- Buckets and catch pans used for petroleum products be stored in a control area and separated from combustible materials
- Placement of the wheeled fire extinguishers includes annual training with a training log maintained by MRRA
- Current inspection and testing of the thermostatic releases in Hangar 5

The interim fire protection plan is approved as part of the plan of corrective action which includes a full risk assessment of the hangars.

Joshua Shean
Brunswick Deputy Chief
Fire Prevention Division

CC: Julia Henze, Town Manager – Town of Brunswick
Gregory J. Day, Assistant Fire Marshal – Maine Fire Marshal's Office
John (Jack) Poole III, Poole Fire Protection
