John Eldridge  
Brunswick Town Manager  
85 Union Street  
Brunswick, ME 04011

Dear John,

I am requesting a funding appropriation of \$140,000 for People Plus for the Fiscal Year 2022 -2023 and \$20,000 for the Brunswick Area Teen Center Program. This is a total funding request of \$160,000, **(the same request level as the previous seven years!)**. This funding supports programs and services for over 1,600 residents as well as volunteer and outreach services to those without access to transportation, in need of improved nutrition and increased socialization opportunities, exercise classes, technology support, and more!

Our total budget for People Plus, (Senior and Teen programs), is approximately \$492,727; of which the Town of Brunswick contributed \$157,000 last fiscal year. The organization raises approximately \$335,727 to support the "Brunswick Area Community Center for Senior Citizens" as chartered by the Town of Brunswick in 1976.

People Plus has evolved during the COVID-19 Pandemic to care for our members both while they stayed safely at home and participated in hundreds of programs at the Center!

- Provided over 31,000 miles of FREE transportation to over 634 riders;
- Shopped for and delivered more than 1,000 grocery store orders;
- Coordinated more than 700 prescription and medical deliveries;
- 10,000+ volunteer service hours logged, including 113 volunteer drivers;

We at People Plus see this Center, our staff, and the town of Brunswick as a unified team providing vital community services, aid for homebound residents, health and wellness options, and social outreach to our growing senior and teen demographics. Thank you very much for your continued support. Without this base funding source, our organization would not exist!

Sincerely,

Stacy Frizzle-Edgerton  
Executive Director People Plus  
*The center that builds community*

*Stacy Frizzle-Edgerton*  
*Thanks John!*

## Town of Brunswick Budget Stats/information Members/Stats – 2020-2021

Thanks to the partnership with the Town of Brunswick, People Plus has become incredibly vital to the lives of our older adult population and much of the youth in this town. During the last two years of the pandemic, we held thousands of classes, clubs, games and meals at the Center, had over four thousand deliveries of groceries, food pantry boxes, meals and prescriptions – AND provided 32,000 miles of transportation - keeping older and teen residents healthy, happy, engaged and safe!

We are celebrating **FORTY-FIVE** years as a Senior Center, **TWENTY YEARS** of Music in April, **AND The 14<sup>th</sup> Annual Gelato Fiasco Scoop-a-thon fundraiser**, benefitting the Brunswick Area Teen Center Program! These fundraisers have brought in over \$500K for the organization over the last twenty years! Enabling us to provide incredible services for our seniors and teens and we continue to fundraise and partner with other agencies to serve this vital community.

### People Plus Members

Total Members-1637

Brunswick – 771

Topsham – 463

Harpswell – 226

Bath/West Bath – 66

Bowdoinham/Bowdoin – 28

Other areas/out of state – 83

### People Plus Center Visits from Brunswick Residents

Club participants	1847
Class participants	2483
Congregate Meals	688
Takeaway Meals	1797

### Volunteer Transportation Network - (FREE Rides for Residents)

Registered Riders total – 675 / From Brunswick - 337

Registered Drivers: total – 120 / From Brunswick - 42

### Grocery, Prescription, Food & Pantry deliveries

**TOTAL - 2139**

Brunswick meals provided - 914

Groceries - 556

Prescriptions - 328

Pantry boxes – 341 (each box is 7 meals = total 2387 meals)

## **PEOPLE PLUS PROGRAMMING FOR APRIL!**

We are closed Monday, 4/18 for Patriot's day. FYI - That is also school vacation week.

Ashlynn continues her weekly tech help appts in April

Easy Riders Biking Club is back for the season. They meet on Tuesdays at 12:30 pm

Outing Club (which is up to like 40 members!) is changing back to a 9:30 am start time (instead of 11) for the warmer weather

Monday Bridge has not been coming for several months. But there are some newer folks that want to bring it back. However they will be changing it up and playing a slightly different kind of bridge called Duplicate. They are willing to teach as well. The couple plays in other bridge groups so they expect to bring in new members to play on Monday for this group. Instead of starting at noon, this new group will play from 1-4 pm.  
Note: there is still "regular" bridge on Tuesday mornings.

Lunch - the plan right now is for a ham and mac & cheese on 4/21.

We are doing one more month of the afternoon Ladies' Tea and Mens' coffee. We will resume morning breakfasts again in May once taxes are done (they are using the space we need).

Taxes are here until Thursday, April 14.

Margarita is back from vacation and resuming haircuts

All clubs are now back meeting in person at the Center. Some like Write On and language clubs had been on Zoom for a few months.

We will have a balance and falls clinic with Reform PT on Monday, 4/11 at 1:30 pm. It will be inside!

The Gelato Scoop-a-thon for the Teen Center is on Wednesday April 27 from 11am - 11 pm. It's back to "normal" with celebrity scoopers all day and entertainment outside on the sidewalk. Make sure to spread the word!

Music in April kicks off April 1 at 9 am with an online auction the whole month of April (ends April 29, 10 pm). We will launch about 50 in the beginning and launch new items every Thursday so by the end all the items will be in there. We will have over 200 items.

New this year - we are having a grand finale on Friday, 4/29 from 7-8 pm. Frank and Stacy will host and run a live auction from the Center! People will bid live online as it happens. We have a special list of items just for that hour. Please help promote this auction once up and running.

If someone does bring in a new auction item during the month of April, that's ok, just let me know!  
Our Collette Tulip Cruise trip for 2023 is going well. 4 signed up so far and several more looking at it.

## Who We Are

**45<sup>th</sup> People**

The center that builds community  
**ANNIVERSARY**

**Plus!**

People Plus supports an engaged, healthy, and independent life for older adults, while joining with others to build community for all ages.

**People Seniors** - a variety of programs supporting fitness, wellness, recreation, socialization, and learning opportunities. Activities include exercise classes, art classes, games, interest groups, meals, travel, presentations, special gatherings, and more.

## People Outreach - Free community programs including

the Good Morning safety check-in program, Volunteer Transportation Network (VTN) rides and shopping services, and Midcoast Meals meal distribution & take-out - in coordination with the Mid Coast Hunger Prevention Program.

## People Teens

- Run by People Plus, the Brunswick Area Teen Center provides a central place where young people can meet safely to explore creative outlets, share their talents, and develop into well-rounded adults.

**Hi!**

## Back In School! Fall 2021

### Quotes from some of our youth members 2021-2022

The Teen Center was open as the school year began and kids returned to school. Attendance remained lower than pre-pandemic for safety/health reasons in the TC then started increasing with up to 18 kids attending in the afternoons prior to the December holidays. After the holidays we remained closed to the kids until late January due to high Covid numbers among students. We are currently open to a limited number of kids once again as numbers hopefully continue to go down.

#### What are the kids saying....

*Teen T- "I have been coming to the Teen Center for years and it's really entertaining. It's better than doing nothing at home".*

*Teen T W- "I like it here, it's not my house. The food is a whole lot better than school food and my friends come here".*

*Teen A- "The food is great, friends are here, it is very enjoyable with so many things to do. I enjoy that I can get help with my homework".*

*Teen AD- "It's fun. It is good exercise having to walk here from Mt. Ararat. Gabe is here, I love playing basketball, there is free food and it's a good place.".*

*Teen G- "I don't have other things to do after school and it's fun here. I get food I don't have at home here. I like the Holiday events they have, and the staff is dank". (that's a good thing)*

Brunswick Area Teen Center Program – Fall 2021

Feb-closed for 5 days-school break plus one snow day.

April -closed for school break week

Closed June 21-24th

August closed for 2 weeks

closed Sept 2 days-labor day and Jordan waiting for covid test results day

Support means with Mental health agency worker

Barb Fridays was Barb Swisher with Topsham group

# Stone soup fundraising

For me, fundraising is like the book “Stone Soup.” Do you remember that book from growing up? It was always one of my favorites. First of all it was about food; secondly, it was about solving a problem and lastly it had a happy ending! All of my favorite books were about food, solving a problem and had a happy ending.

If you don’t know the book, here’s a quick recap... A person from a village wants to make soup but all they have is a pot of water and a stone. So they light a fire under their pot of water, plop in their stone and hope for the best. Along comes a man who has nothing but an onion. The villager invites him to put his onion in the soup so they can share. The next person has a carrot to add to the pot, and so on and so on, till eventually everyone in the village has donated to the soup — that started with just water and a stone. And of course they all shared a delicious meal and became best friends forever!

It’s exactly like what we do at People Plus. On a daily basis we are bringing individuals together to serve our entire community. One person gives a ride, another makes a meal and before you know it, there are thousands of people benefiting from programs and services at the Center.

The trick is that we couldn’t do it without everyone’s individual contributions. We can all give or donate small things that we don’t think aren’t worth much on their own, but when you throw them in the pot with everyone else’s — it’s soon grows into enough to help the community!

This also works for fundraising. My donation doesn’t feel like it’ll go very far, but if all 1,637 People Plus members — along with others in the community also contribute, then we’ll be making a real impact. And I’m

hopeful that this approach will help us with a current situation.

The Teen Center program is struggling to reach some youth right now because there is an issue with transportation from the schools to our building. This has been an ongoing challenge in that the buses are very full and the kids can only get on if they live near the Center. It has come to a head during the pandemic and we have finally decided to take the bull by the horns and buy a vehicle so that we can pick up the kids ourselves!

We are thrilled with the idea that we can better serve the dozens of kids who cannot get to the Teen Center every afternoon. So we figured if all of us can put in a little bit, we can pull together and buy a minivan! And with that, the sky’s the limit. It can be used for daily school pickups (junior high, high school and Region 10), it can be used for summer field trips AND while the kids are in school, the van will service our senior community.

Sarah is already chomping at the bit to start using it for her thrice-weekly trips to the Food Pantry to pick up food for our seniors. It would also benefit our volunteer transportation network as we could use it to give rides, or carpool for an event or take a field trip! All during the day while the kids are in school!

Can’t you just see it now, the van pulls up at the junior high with a big Teen Center logo on the side of it and the kids are lined up, ready to embark. We might have to take two trips — just to get them all to the Center!

It’s about \$45K to get a new vehicle. Which sounds pricey — but it’s definitely the way to go in today’s car market. We’ve been working with Bill Dodge Auto Group

*Stacy Frizzle-Edgerton*

to find a van and they’ve been awesome.

And I’m thrilled to say that we are launching this capital campaign in February with a matching \$5,000 grant from Jim and Sue Howard and the Priority Real Estate Group fund. The Howards have been long-time donors to the Teen Center and Jim was happy to direct his \$5,000 matching

program toward helping us procure the van this year.

We have some other community partnerships helping us fill the pot as well. Rusty Lantern Market has very generously donated gas for the van and Spectrum Generations will help offset the operating costs on a yearly basis! All of these gifts in kind really add up to help fill our pot of community support.

We are so hopeful to get the van for the Teens and Seniors at our Center and appreciate any help you’d like to offer. Remember your “carrot” goes a long way toward making this soup feed our community! Together we can support our teens and seniors. Thanks so much!

# One simple call changed it all

It's February break week after two long years of COVID and I had the joy of taking my youngest daughter, Juliet, to see some colleges today. She will be 17 very soon — although it seems like yesterday that she was still swaddled in my arms.

She's a junior in high school now and we are starting to make plans about her future. As the youngest of my three daughters, this was a rough year as the second of her sisters went off to college, leaving her alone for the first time in her life. We have bonded over this, which has been lovely, but I know these days are fleeting. She is beginning to feel the breadth of her own wingspan — and she'll soon fly away too, as she should.

Yet, there was a brief time when I wasn't sure my littlest chick would be able leave the nest at all ...

Two years ago during the winter break we weren't looking at colleges. We were skiing with friends at Sugarloaf when Juliet began complaining of abdominal pain and we made our way to Mid Coast Hospital. This was before the pandemic had officially begun and you could easily get into the emergency room. It proved to be appendicitis and she had her appendix out on Presidents' Day of 2020.

That's really not such a big deal and certainly not worthy of an anniversary notation, except that a day after her surgery we got a call to let us know her appendix contained a cancerous tumor. Yes, you heard me right. My little girl's appendix held a tumor.

Now that type of cancer is a pretty rare thing in a person of her age and certainly not what we expected to hear, especially as she was dancing competitively, playing hockey, and all around enjoying her freshman year in high school.

We were in shock, of course — especially when we were informed a day later that she needed an operation to remove much

**JULIET FRIZZLE BUMPED INTO THE HUSSON UNIVERSITY EAGLE MASCOT** during her college tour in February! He loved meeting Juliet (not so much her University of Maine sweatshirt!)

of the surrounding tissue — including parts of her intestine and lymph nodes to ensure clear margins. "Clear margins" is a term that people with cancer hear all the time, yet was certainly nothing I had ever anticipated hearing about my child.

It was a scary and overwhelming few days until the Friday of that week — three days after her initial surgery — my cell phone rang and I heard Lois Skillings, the CEO of Mid Coast Hospital, on the other end of the line. If you've never talked to Lois, she has an amazing voice. It's strong and purposeful, yet soothing and calm. And I needed that voice right about then.

She called to say she had reviewed Juliet's case and felt we should put the brakes on any surgeries. Since Juliet was out of immediate danger, we should go to the Children's Cancer Center and get some expert opinions on the matter. So thanks to Lois, after many meetings and many review panels, we were given the happy news that we would just keep an eye on Juliet's abdomen with ultrasounds.

So here we are two years later celebrating that she has had many of those "clear margin" ultrasounds and that we expect many more to come. And it's really because the leader of our community hospital stepped in and, for Juliet and my family, she literally saved the day.

So as you read this, it's March 2022 and while Juliet's cancer-versary is a huge thing in my house, we know that the two-year mark of the COVID-19 pandemic is an anniversary on a global scale. We all know someone who's been impacted by the virus. We all know someone who has lost a loved one and felt the fear of something that also seemed overwhelming and much larger than them.

And again our seemingly tireless medical leader Lois has come to our rescue. It's been two solid years of Mid Coast Hospital

## From the Executive Director

*Stacy Frizzle-Edgerton*

leading the charge and providing care for this community, taking on more patients than it was ever designed to hold, finding the supplies, the personnel, the beds, and the energy to treat what seemed to be a never-ending onslaught of patients with a virus that has no cure.

And she did it with that same voice. The same steadfast, calming and determined energy that kept us all focused, washing our hands and wearing our masks. And somehow over the last two years she and her team have managed to administer more than 75,000 vaccine doses to turn the tide of this pandemic. It is incredible.

So as we begin to take off our masks, look each other full in the face, give hugs again and lean in closer while talking, I know Lois is the first person to say it took hundreds and hundreds of committed community members to get us here.

And while that's true, we all appreciate her being at the helm and repeatedly making the call that saves lives. It's that sort of community involvement that is so amazing. It is the willingness to help the greater good and we see it all the time at People Plus and in our volunteers — just as we see it in our community leadership. And it's because of this selfless giving to others — the taking notice of one family's challenges while caring for an entire community — that has made a difference for all of us these past two years.

So from my family and Juliet, as well as from the entire (nearly fully vaccinated) People Plus membership, we really appreciate it. Thank you Lois and everyone in this community who helped us get through the last two years. We are happy to see the light at the end of the tunnel and that those "clear margins" are growing larger every day.

**MY HEARTFELT THANKS TO LOIS SKILLINGS** for all she's done for both my family and our community!
