Date of Birth:	Place of Birth:
Height:	Weight:
Where is your permanent Residence?	
Please complete the following:	
I, _____ affirm that I am a resident of Brunswick, Maine, and that I deny all claims (Applicant's Name) and privileges for residence for any other community in OR out of the State of Maine. To the best of my knowledge, I have complied with all the laws and ordinances of the State of Maine and the Town of Brunswick. Additionally, I affirm that I have received educational literature on vibrio bacteria and agree to read the information provided before harvesting. I understand that all shellfish harvested under a recreational license are for personal consumption only and not for resale. I am applying for a Resident Recreational Shellfish License at the cost of \$50.00, unless 62 or older.	
Please sign in the presence of a Brunswick Municipal Clerk:

Resident Recreational Shellfish License Application

Town Regulated Shellfish (check those you intend to harvest)

Species	Legal Size
<input type="checkbox"/>  Soft Shell Clam (<i>Mya arenaria</i>) This species is found between the tide lines or just below the water mark. Soft shell clams are 4 to 12 inches below the surface. Dig cautiously with a clam rake to avoid breaking their fragile shells.	2 inch minimum, measured along longest axis. Return to sediment, preferably with the neck in the upright position.
<input type="checkbox"/>  Quahogs (<i>Mercenaria mercenaria</i>) This species is found just below the sand or mud. You may harvest by hand or rake.	1 inch thickness measured at the hinge of the clam. <i>Vibrio Educational Requirement</i>
<input type="checkbox"/>  Razor Clams (<i>Ensis directus</i>) This species is found near the low watermark in the sand or mud. Dig in the same manner as soft-shell clams, but deeper and faster.	4 inch in length
<input type="checkbox"/>  European Oysters (<i>Ostrea edulis</i>) This species is found on hard bottom or attached to rocks or piers. You may harvest with a clam rake, dip net or by hand.	3 inch in length <i>Vibrio Educational Requirement</i>
<input type="checkbox"/>  American Oysters (<i>Crassostrea virginica</i>) This species is found on hard bottom or attached to rocks or piers. You may harvest with a clam rake, dip net or by hand.	2.5 Inch in length <i>Vibrio Educational Requirement</i>
